Your submission:

Dear Sir/Madam,

I would like to make a public submission in relation to [REDACTED] insurance (medical indemnity insurance for the Medical Profession in Australia) and recently providing general insurance products to the Medical Profession including life, general medical insurance products , disability and loss of income insurance products and others.

I would like to make a COMPLIANT THAT IS SYSTEMIC IN ITS NATURE and for the best of my knowledge, has NEVER been reported in any of the past Royal Commission hearings or public or senate inquiry by the Federal Government or NSW Government.

The systemic nature of the issues relate to NSW and possibly to Queensland because these two states have not ADOPTED the new national system introduced in July 2010 (AHPRA).

Unfortunately, [REDACTED] has refused to represent me with any of my past legal proceedings(3 years) because of an apparent recent Policy changes that I believe are not fair, oppressive abuse of power and inconsistent with their obligations and agreement with the Federal Government of Australia to provide compulsory cover to protect the interests of the public.

If it is okay, in due course I will make detailed submissions in relation to the NEGLIGENT role of [REDACTED] who I believe is receiving a financial benefit from the Government and at the same time engaging in unilateral actions that are contrary to the interests of its Members like me (20 year plus) and in my opinion support the conflicting interests of the main stakeholders.
