Your submission:

Dear Commisioner

In view of the bank's conduct to date I am most concerned about the risks that its invenment banking activities may pose to commercial banking and indeed the overall stability and safety of commercial banking for ordinary Australians. On this basis I am of the view that the the bank's investment banking activities should be completely seperated from its commercial banking activties and suggest that the Glass-Steagall model warnents serious consideration.

Thank you for your consideration.
