Do you agree to your full name being published: Yes

Your submission:

I fully support the now long overdue need to separate our commercial banks from the speculators.

A Glass Steagall system will work well. Your enquiry so far, Sir, has wonderfully brought to the public what many have been claiming , and for a good while now.

Clearly the Banks cannot be trusted. And our politicians show no spine or are indeed decisive!

We have one chance at this, and You Sir have brought us this chance to save our economic base.
