Your submission:

Dear Sir

As a very concerned follower. over the last 20 years, of the outrageous banking and banking officials behaviour, it was with much relief when I heard of your royal commission into the banking sector I can not see how the Bob Katter push for the break up of the commercial banking arms and the gamble crazy investment banking arms is being ignored. It is difficult to see how the media and the royal commission is ignoring this necessity when the official RBA web site shows 37.5 trillion dollars of off balance sheet debt thru bets that can never work for the benefit of this country or assist the depositors of these banks. We, as citizens, have just copped bail-in legislation, thru a very doubtful senate sitting ( 7 members ) on 14/2/18, and are now in very desperate need of protection., I hereby implore you to order the break up of these potentially community crushing organizations.

Raymond N Jans Farmer [REDACTED]
