I have been waiting for 10 years for a resolution from the bank, I had a \$50,000 mortgage and now I have 1.3 million dollar mortgage no benefit to me

It seems I have been a slave to a bank for 40 plus years,always trusting the bank was doing the right thing

LOW DOC LOAN,ASSET RICH CASH POOR, I became "SHARK BAIT"

What was to be a renovation to my house and a mortgage ,has stripped me of everything

I am now 67 and looking after a very disabled sister and receiving a pension,which subsidises my sisters needs

ALL LOST

"O" to replace what is lost

NO ability to replace lost assets

My circumstances are SHOCKING I spend every waking hour trying to save myself and my children's inheritance to no avail

SHOP this happening to anyone else

There was nowhere to go regarding the "cowboy" builder who demolished parts of my house and left it in a disgusting state

The bank leased with that builder and refused to do progress inspections and abandoned me not allowing another builder to assist

IT would be a major help if Banks were different,and not evil as they are

IS Glass- Steagall the best option?
