Do you agree to your full name being published: Yes

Your submission:

To Commissioner Kenneth Hayne

Please consider recommending the introduction of a Glass-Steagall like bank separation law to stop the greed continuing. If there is a bank failure, depositors funds could be "Bailed In" to save them from their derivatives gambling. This is a real threat since the sneaking through Parliament on 14th February 2018, a law to enable this to take place.

Yours Sincerely, Errol Schmetzer
