Do you agree to your submission being published: Yes

Do you agree to your full name being published: Yes

Your submission:

I write to express my concerns in regards to the corrupt practises of the banks and the unwillingness of our government to intervene and direct our banks to adopt proper practises and appropriate behavior particularly when it's our life savings. Our savings are exposed to their evil and greedy ways which has already destroyed many families and are set to destroy so many more. I hate the thuggery of the unions but I despise the banks even more for they create a greater and far more destructive situation than the unions ever could. I ask that the people's savings be protected from these evil, "profit at all cost" cartels and that our gutless politians get off their backsides and support the introduction of Glass Steagall. I want these banks to be DIRECTED and not politely asked to ensure that they don't use OUR money in their nefarious dealings. I have no interest in what they have to say.... We are here to change their evil,greedy and dishonest practises!!!

Regards Chris Williams
