I have been following the banking situation for over 12 years & believe that Glass Steagall is the only thing that keeps the Bankers in line.

Why not adopt this Act again as it worked for nearly sixty years.

Dr Wilson Sy believes Glass Steagall should be revived because he knows that APRA cannot control the Banks.

A type of Glass Steagall must be introduced immediately or this Housing Bubble will explode and our economy will be Shot.

Regards

Frank Student.
