Your submission:

- It is my opinion and belief the only way to fix the banks is to break them up through a Glass-Steagall separation of traditional commercial banks with deposits, from all other financial services. Please can the Royal Commission support or recommend this action.
- Secondly, I ask Commissioner Hayne to investigate APRA's bail-in powers, and the banks' ability to change the terms and conditions of deposit accounts without notice to allow APRA to order a bail-in of deposits. Thankyou.
