Do you agree to your full name being published: Yes

Your submission:

We wish to have the Royal Commission into banking extended allowing it time to fully investigate the banking system. We wish to have the Royal Commission consider Glass Steagal for our banking system in Australia.

The commission needs to delve deeper into the fraud that has occurred in the Superannuation system as it pertains to wages earners who are given few options to protect and invest their money up until they retire and can legally withdraw funds.

Regards

David Wenk
