Do you agree to your full name being published: Yes

Your submission:

Why do the banking elite have special privilege ? If I run a business it succeeds or fails based on my own decisions and competency . Why is it that our governments with their free market ideology apply to everyone BUT the banks ? They should not bail out any banks ever ! If they do they are supporting incompetent and corrupt institutions which they themselves have put in the rules and framework for them to operate . The bankers who have deceived and committed fraud for their own greed should be held accountable and charged the same as any other member of the public who did the same ! [REDACTED]

Please for Australians sake put in the rules, frameworks and counter balances for the banking industry to protect Australians from their greed . banks make money its their purpose and just what they do.

What government is for and meant to do is govern for the best interests of the people .....this it continuously fails.
