Submission for: My Self

Name of other person, business or organisation:

Do you agree to your submission being published: Yes

Do you agree to your full name being published: Yes

Your submission:

I want to thank Commissioner Hayne for having an opportunity to write a submission to this Royal Commission into the Criminal Banking Practices here in Australia.

I would like to stress that there is a grave need to do the following:-

1. 'Break up the Banks' with an Australian Style Glass-Steagall Act & also
2. To put in place legislation to stop the banks from 'Bailing In' (stealing) Australian citizen's savings/ capital & to
3. Look at taking away ASIC's role/ power in being the Banker's own goat in charge of the our Carrot Patch.

So that a totally independent body with no 'conflicts of interest' are involved.

Possibly banking policy decisions could be reviewed by a panel of 'balanced' professionals so as to 'keep the honest'. As these bankers are basicly in the same league as Car salesmen, Insurance salesmen, Real Estate agents.

4. To Press for prosecution of the Bankers that have Criminally & habitually violated the Australian Criminal Code with impunity. And having this Culture of thinking permeating so that 'they' (the bankers) personally believe that they are exempt from punishment & injurious consequences. **An example needs to be made by sending them to goal. And sadly the amount of ruined individuals that **have been destroyed** need to be addressed. Not to mention those who have been pushed over the edge in regard to driven to suicide & broken up families..**

Commissioner Haynes, I call on you to please help us ordinary Australians who are looking at a total destruction of all that we have 'honestly' worked for, for our entire lives.

You are our only hope at this time. As this is NOT going to go away !! It is only going to get a whole lot worse.

Again, thanking you for your help,

A 7th generation Australian,

Sincerely yours,

Ian Leslie Brander
