Your submission:

I am in support for a physical & structural separation as in the legislation before Parliament ,the Banking System Reform Bill 2018 (separation of banks) introduced by member for Kennedy Bob Katter on 25 June 2018 It will enact a Glass Seagall separation of commercial banking and all other financial business, and bring APRA under a much tighter Parliamentary control.

I think the protection of the general public is of great importance as the findings of your report reveals. Thank you for this opportunity to make this submission. Rodney Doel.
