Phone Number: [REDACTED]

Submission for: My Self

Name of other person, business or organisation:

Do you agree to your submission being published: Yes

Do you agree to your full name being published: Yes

Your submission:

To whom this may concern,

I am writing this submission to try and correct a great crime that has been perpetrated against the people of this country and indeed the world for that matter. The banks are owned and controlled by a few select individuals and special interest groups that do not have the best interest of the people at heart. The banks create money out of thin air with the use of fractional reserve banking which is essentially fraud/counterfeit if done by anyone else. We the people need new systems of governance and the people need far greater say and control of there weath rather than having it essentially stolen by the banks and there corrupt friends. The interest rates are out of control and people are sick of it , if it does continue then the people need a revolution to take back what has been unlawfully stolen from us.

Kind regards
