I am very concerned that there has been a loophole in the charging of premium services for superannuation and then nothing was done to endure fair play; For Instance all superannuation clubs/ institutions charge a fee for death and Total Permeant Disability. Yet they never advice a client of their right to make such a claim. So they (Superannuation funds) keep profiteering from a service fee that they never divulge to a client when they should be making any attempt to claim. I am arguing with [REDACTED] right now about this as I was working as a labourer for 5 days on the Eastern Distributor Moore Park. I foolishly listened to a senior staff member who directed me to lift a concrete pump full of wet concrete. On do so I caused and popping of a disc which led to myself having a laminectomy at Saint Vincent's Hospital. This took 5 -6 year after they appealed and later offered no reason. REMEMBERING THAT I WAS DRINKING HEAVILY AND ON VERY STRONG MEDICATIONS, WHICH WAS QUIT NORMAL . my point is why was I not told of [REDACTED] fund charging me for this T.P.D. And after the courts found the case proven that I was T..P. D ; then I Believe [REDACTED] was duty bound to inform me of my rights, AS THIS IS WHAT THERE SERVICE WAS CLAIMING IS THE FEE FOR T,P,D.. YET [REDACTED] will not even give me a copy of my contract in 2003 "Between [REDACTED] and myself">All I have from [REDACTED] is a phone conversation stating I withdrew \$27.7??? after being told that the funds were placed there by [REDACTED] (a sum of \$25,000.00) which was for T.P.D. I only realised this after a very short TV advertisement by [REDACTED]. Asking for clients that have been failed to contact them , which I did do. To learn that the original lawyer has left. And I was told to look to another legal firm I HAVE NO IDEA IF THIS MAKES ANY SENSE PLEASE FEEL FREE TO CALL ME; i HAVE MANY EMAILS BUT I DO NOT FEEL THEY ARE MUCH USE HARRY PEARSALL [REDACTED]
