Your submission:

While I was working on July 31st 2014 I had suffered the beginnings of a stroke or ruptured aneurysm while landing in a plane to Townsville and had to stop work, I had not been able to work for several days due to severe headache nausea and malaise, I deteriorated became unconscious suffered clonic and tonic seizures and transported to hospital on the 9th August and was diagnosed as having cerebral hemorrhage and ruptured aneurysm and on 11th August I was operated on to repair the ruptured aneurysm and clip a smaller aneurysm near by. I provided [REDACTED] proof that I ceased work 31st July 2014 due to illness that led to my disability and that I was not able to work since. Employer letter [REDACTED] provided proof, plane ticket provided proof. [REDACTED] wrongly dismissed my claim for income protection with 'doctored' trustee deeds' that several super partner 'trustee delegates' and assessors' tried to palm off. I claimed TPD too because if they had paid me rightfully, they had to pay TPD as a condition of my income protection payment. [REDACTED] claimed that I was not insured because I was not insured because of their 'date of disablement rule' which only applies to TPD alone but they claim that it also applies to income protection too, (which it does not) I got proof that [REDACTED] had paid [REDACTED] insurance premiums for income protection, TPD and Death up 15th August 2014. [REDACTED] lied to me about it tried to hide it and eventually snuck it back into my account the next year (Jan 2015). As [REDACTED] Member I have every right to expect the trustee to look out for my best interests not [REDACTED] Why did they protect [REDACTED] insurance instead by saying I was not insured ? I also went to the Superannuation Complaints Tribunal and they have all of my proof from all of the illegal dealings from [REDACTED] and [REDACTED] I got fed up with all of their lies and the SCT doing nothing and said I was going to the media but the SCT said they would penalise my daughter [REDACTED] and I don't know if it is gaol or fines and cannot risk that. I gave all of the evidence to the SCT and so did [REDACTED] and [REDACTED] could you please make them give you the information without getting me or my daughter in trouble please. [REDACTED] and all of them just laugh at SCT because they have no powers to investigate. I told them that they had doctored the books to hide my insurance premiums and [REDACTED] said he can't investigate it. I sent doctored documents to [REDACTED] asking him to look into properties that were takes from [REDACTED]. [REDACTED]
