Do you agree to your full name being published: Yes

Your submission:

Australia desperately needs a Glass-Steagall Act to stop banks and superannuation providers from looting the public in case of a global financial crisis. My superannuation funds and banking deposits need to be made safe in light of APRA's recent moves and the finding of the Banking Royal Commission we are obviously not safe. Please stop superannuation companies from charging high fees, gambling with my money and bring in Glass-Steagall!
