Your submission:

No-one and not even a company should be above the moral code of our culture and if the laws are inadequate then LAWS SHOULD BE CHANGED to make the culpable responsible. For too long the rich and the powerful have made their own laws and in the case of the Banks we have even subsidised their gambling with OUR money through bailouts. Our SUPER is something we RELY ON for that time in life when we are not longer wanted in the work-force. No-one should tamper with that asset !! It is OURS. Banks must not be allowed to endanger this asset in any way and particularly by LOOTING. We NEED GLASS-STEAGALL structural separation and we need it NOW! LOOTERS are CRIMINALS!! The Banks should NOT be protected by some misuse of our laws from prosecution for the criminals they have been found to be. If I stole large amounts of money I would be jailed. WHAT BANKING CEO has faced these charges in Australia ??? Glass -Steagall will separate the speculators and gamblers from the banking system we thought we USED TO KNOW. Stop the LOOTERS - enact GLASS-STEAGALL NOW
