To whom it may concern, I would like to see the glass steagul act brought into legislation, the royal commission has uncovered massive corruption in the banking sector and the regulatory bodies that were meant to stop it , it's plain to see they cannot be trusted in any shape or form and things need to change drastically, this needs to be the moment we draw a line in the sand and fight back against the greed and corruption that has taken over our world / country, and what better place than here , what better time than now and who better to start with than the banks , I don't trust the banks to do the right thing with my super thanking you in advance Eli Hammond
