Your submission:

Dear Commissioner We need to separate the Banks internal structures to protect Australians from the insidious behaviour of our so called "trusted Banks" as we have seen over the months of the commission, they are criminals. This can only be done by bringing in "Glass-Stegall" to separate their operations to protect us all. I find it truly breath taking that the banks super funds take huge profits, commissions, even if they are losing your money, how can that be lawful. I wish I had that in my business, lose money for the year but still make money. We need this Glass-Stegall NOW, when is enough going to be enough, stop these criminal Banksters please. The Governments seem to be very afraid to do anything, I wonder why!!!! Also the Commission has still not touched on the Banks MASSIVE gambling debts from derivatives trading which I believe are in the hundreds of billions of dollars and have to be paid back sometime with whose money!!!! yours and mine of course. Good Luck Yours sincerely Neil R Eastway
