Do you agree to your full name being published: Yes

Your submission:

I am sure that the only way open to safeguard Superannuation is to immediately institute the Glass Steagall system which gives all citizens much needed protection. I have no faith whatsoever in APRA who in my opinion are not a competent body able to steer our economy in the direction needed. Our financial future is on a knife edge. Superannuation, Banking and the Insurance industries have been acting disgracefully (and fraudulently), a situation that needs roping in as a matter of great urgency. Strong action is a must, Glass Steagall or bust!!
