Your submission:

I believe that glass -steegle must be passed by the Australian Government, to safe guard every person in this Nation. The Banks and Insurance industry are so corrupt. My question is, why hasn't the federal Police commenced an inquiry into this fraudulent behaviour, as well as APRA. If I was being involved with a fraudulent situation I would be immediately arrested and placed in Jail, until my case is heard by the Police. So why the same rules not being applied to these criminals? I am a retired senior Police Officer. So why should the Banks and the Insurance Companies get privileges which are above the Law of the Land. This is discrimination. These CEO'S, and Directors should all be jailed. They have already pleaded guilty to this fraudulent behaviour, and as a result, many people have suffered greatly. Losing their homes and farms. When is the Judiciary, going to deal with this behaviour? So far no action has taken place. If these people get away with it, do not be surprised if Civil war commences and the people will take it into their own hands.YOU CHOOSE. What are you going to do?
