Submission for: My Self

Name of other person, business or organisation:

Do you agree to your submission being published: Yes

Do you agree to your full name being published: Yes

Your submission:

Dear support personnel, please submit this submission for the eyes of the honourable Commissioner presiding over the current Royal Commission of Inquiry, Mr Kenneth Hayne QC AO into the misconducts and deceptive business practices found rife among Australia's defaulting major institutional Banking corporations. Thank you.

===== I respectfully plead my appeal to you Justice Kenneth Hayne QC AO.....as the Commissioner presiding over the present Australian Financial Services Sector Royal Commission of Inquiry. Australia is currently poised to suffer a catastrophic man-made financial disaster (not unlike the Great Depression brought upon the World by a group of prominent American Bankers led by hard-hearted JP Morgan himself) simply due to the excesses of the International Banking Institutions demand for even steeper profits and the induced voiding of their enormous debt burdens. I respectfully request that you intervene personally by calling for the Glass Steagall Act to be legislated in the most immediate instance to save the financial ruin pending another enforced collapse of the Australian Financial System? Sir, you will no doubt be sharply aware how the Australian Bankers have committed their depositor's money to gamble for even higher profits that are being sought by Australia's major corporate Banks, through their engagement in the Worldwide high-risk financial derivatives market. The Australian people, voicing on behalf through this submission alone, plead with you to help the citizens of this nation escape from the portending financial destitution that now appears on the horizon....we must not accept the unwholesome actions of the collective Banking Director's pursuits for their unwarranted ever-increasing profit margins so desirous of the aforementioned "unwholesome influencing persons?" I, on behalf of Australia's citizens, beg for you, to impose your exceptional powers of influence, to formally lodge against the Australian Banking cartel and their supportive Australian ministerial political party influences. Thank you, Sir. My respectful esteem is accorded to you, William Boeder. [REDACTED] (Former Returned Soldier record of service in the conflict-riddled country of South Vietnam circa 1971.)
