Your submission:

Dear Sirs, Dear Madams, having lost most of my superannuation a few years back due to the gambling habits of the banks in question , as well as being charged overinflated fees on accounts , I am asking you to break up all the major financial institutions in Australia and ask you to recommend the implementation of Glass-Steagall as recently introduced by Bob Katter . I also ask you to fully explain the true powers of APRA and the full ramifications in regards to all Australians and their savings , as the Government is obviously continuing to lie to the Public , all the while misleading Parliament . It is evidently contempt and corruption and I hold the opinion that the time is right to notify The Australian Federal Police to arrest and charge all relevant persons involved. Today would be a good day to start. For our children. Michael Weigang
