I am sickened by the conduct of Australian Banks and the complicit support of the illegal, immoral and unethical conduct demonstrated by organisations that should be acting in the interests of Australian citizens. The fact that government was not only condoned these action with comments like ' implicit in these dealings, but also worked against having a Royal Commission - 'Banks....profit from predatory and unconscionable business practices. Governments know all about it yet refuse to act against the banks.' In law, treason is the crime that covers some of the more extreme acts against one's nation or sovereign. If evidence against banks support these allegations - the perpetrators should be imprisoned! I support the separation of investment and retail banking and the establishment of genuine government appointed regulators.
