Greg,

good to meet you and discuss the Brauer's scenario the other day. As discussed at the meeting please find attached the 2015 FY cashflow budget we prepared with them. This is under the assumption that Kia-Ora lease remains in place as well as the breeders now at Jamberoo and growing out progeny on the river country of Kia-Ora, along with retaining 50 heifers to build the breeding herd as per the cattle flow that was there on the day.

Also attached is a map of the surrounding district and Anglo's ownership and purchasing history - indicating that they are surrounded and its not an if but when r.e the sale - hopefully for all concerned the when is sooner rather than later.

If there is anything else at this stage please don't hesitate to let me know.

Regards,

Jason Webster
